

# FREEDOM ICT CORPORATE PACK: SOLUTIONS AND SERVICES FOR BIG BUSINESS

## Cost control and smarter working with the Freedom ICT Corporate Pack

Business, big or small, need to control costs and ensure that document process and management is effective and efficient. The Freedom ICT Corporate Pack is designed to fulfil these requirements. Understanding the needs of corporate business is a cornerstone of this pack.

## Mobile working and budget control managed centrally

Freedom ICT, and our partners, understand what is required by today's corporate business from home-based staff needing secure printing and scanning to a multi-site or multi-national business driven application. The Freedom ICT Corporation Pack contains the components needed to provide mobile secure printing, digital signature creation, document management and workflow as well as large scale enterprise-wide software packages designed to ensure integration and central management of budgets and applications.

## Print, scan and manage documents from the 'home office' or the 'head office'

The Corporate Pack provides a market leading choice of products and services to meet and exceed the requirements of today's flexible corporate business.

### BUDGETS AND BILLING

- External and internal departmental billing and reporting
- Secure and pull printing and scanning
- Environmental impact savings using rules
- Client department or billing codes

### AUTHENTICATION AND ACCOUNTABILITY

- Device authentication is available to ensure accountability and document security, no matter what process is requested

### MOBILE AND REMOTE USERS

- Documents can be printed and scanned from mobile devices or from computers that are out of the office
- Data centre and cloud based services can be supported
- Secure scanning to email or folders is essential and easily accommodated
- Data security at the device can be controlled with EAL3 level data overwrite at the device
- Security watermarks can be added for printing and a 'copy guard' for copying
